

Gamma Measuring Tape

Gamma is a Bluetooth Measuring Solution that allows users to take extremely accurate measurements in a snap, then wirelessly transmit that information to a pc or tablet to create a fully digital process.

Gamma supplies measurements in milliseconds via its sensors and transmission to PCs. It's wireless and easy. Our product can be used in hospitals, with tools, and much more.

Key Features

- Speedy and Flexible Measurements
- Wireless Transmission
- Digital Processing
- User-Friendly Applications

Technical Data

- Length: 1500mm
- Weight: 140g
- Maximum speed: No limitation. At the trigger of measurement: 5mm/s
- PC Interface: Bluetooth (virtual com-interface). Bluetooth-Dongle is included
- Software: Button operation is simulated
- Power supply: Lithium-Polimer-Akku
- Accumulator time: 12 hours of continuous operation
- Power pack boost time: Max. 3.5 hours (after loading)
- Battery charger: 110 - 230 V Yard Management

Gamma is currently being used by
Warmkraft Inc. for the Defense Logistics Agency contract.
